

MLLG-AL-LED-CAN14MV-21-CC-NK

21 Watt 14 Inch LED Flush Mounted Ceiling Light

Project Name _____

DETAILS

Flush-mounted LED ceiling lights are lighting fixtures designed to be installed directly on a ceiling surface. Our fixtures offer bright, efficient lighting for commercial, industrial, and even residential applications. Unlike recessed lighting, flush mounts do not require a cavity in the ceiling. They are perfect for low ceilings. Our flush-mounted LED lights come in a round shape and are offered in various sizes. They are available in different color temperatures, wattages, and lumen outputs. These fixtures are commonly used in offices, hallways, classrooms, storage rooms, and retail spaces.
