

LLS-POLE-WD-30-C4-T-WYP

30 Foot Wood Pole

Project Name _____

DETAILS

Ponderosa Pine, commonly referred to as Western Yellow Pine, is the second most common pine species. It is predominantly found in the western regions of North America and is one of the most common and versatile wood species in North America. Known for its strength and straight grain, Western Yellow Pine poles tend to be relatively straight and durable, while being slightly heavier than their Southern Yellow Pine equivalents.
