

# LLS-LP-FLAG-AB-KIT

Fiberglass Flag Pole Anchor Base Kit

Project Name \_\_\_\_\_

## DETAILS

Fiberglass flagpoles deliver exceptional performance in challenging commercial environments where traditional materials tend to fail. Our durable fiberglass flag poles provide a 50+ year service life, significantly reducing replacement costs compared to steel poles that are susceptible to corrosion or aluminum poles that suffer damage from weather-related impalements. We have found that facilities using our commercial-grade flagpole solutions experience 75% fewer maintenance issues compared to traditional steel installations. The non-conductive properties of fiberglass eliminate lightning attraction concerns, providing safer operation around electrical installations.

## OVERVIEW

Product design upgrades may result in specification changes without notice. Speak to a Product Specialist for the latest information.
