20 / 24 / 32 / 40 Wattage Adjustable Architectural Linear Light

Project Name \_\_\_\_\_

## DETAILS

Architectural LED Lighting is a style of indoor commercial lighting commonly found in offices, schools, and other commercial spaces. Our fixtures are linear strip fixtures that hang from wires. All the Architectural LED Lighting fixtures we sell are wattage adjustable and color adjustable, so you can choose the light levels and color temperature you like post-installation by simply changing some onboard toggle switches. This takes away any risk of having to decide what fixture you want based on power and color temperature.
