180 / 240 / 300 Watt Adjustable LED Indirect High Bay Light

Project Name \_\_\_\_\_

## DETAILS

Our rotatable linear high bay is the best solution for indoor sports facilities where minimizing glare is important. Designed for up-light / indirect lighting applications the modules rotate up to 180 degrees to be aimed at the ceiling or walls opposed to the ground. This reduces glare and eliminates harsh shadows, we recommend high gloss paint to be used on the walls and ceiling for the best results.
